Working to move Wirral forwards. . .

Over the past year the building industry has had to deal with the impact of covid, supply problems with materials and storms.

Throughout all this Chris, Dave and Phil pressed Magenta on progress at Clifton Avenue. The builder for Delamere Avenue went out of business in the final stages. We've urged Magenta have the outstanding landscaping finished.

After years of delay, disagreements and discussion the Council's draft Local Plan has finally been made public.

We have been determined to get a new one in place, to ensure that derelict & brownfield sites are developed and that the Wirral's Green Belt remains protected.

In July 2016 & 2017 Phil stressed just how important it is to keep good agricultural land for food production.

In 2017 & in 2018 Wirral's slow plan making made the Tory Government to threaten to step in. Many feared their new national building targets put open land at risk The Labour run Council began new consultations about the status of many sites around Wirral.

In October 2018 Chris, Dave and Phil, objected to the release of Green Belt land around Eastham & Mill Park.

The latest plan does **not** involve building on that land. Even so developers may yet challenge Wirral's new plan.

**Dave Mitchell, Chris Carubia & Phil Gilchrist,
Your local Councillors — working all year round**

Eastham House

In February we asked the Mitty Group, new owners of Eastham House, to outline their plans for the historic building. Their work is a major refurbishment that is to maintain the beautiful carved staircase but create new flats..

The other original features will be kept or restored sensitively where possible. All owners will be paying a service charge to keep the communal areas and gardens maintained.

Chris, Dave & Phil have continued to chase up the removal of leaves and mud from a number of areas and the clean up of various sites.

Some locations are listed here -
Neville Road at the end by the A41
Bromborough Cross by the HSBC
Greenfields Ave by the Merebrook
Wensleydale Ave — littered corner
Warren Ln — fly tipping by woods
Athol Drive path to Heygarth Road
Millersdale Close — dirt and moss
Allport Road — mess and dumping
behind the shops on private land
Meadowside Road—squashed leaves

Cleaning up our community

The Council now relies on volunteers to fund and care for the flower beds and hanging baskets in Bromborough village.

Car parking charges ...

Last July Chris and Phil highlighted the effects we believe that charges will have. The issues will again be debated in June. The co-op's car park is not owned by the Council.

The co-operative car park is not owned by the Council.
