

Send a message to the government on May 4th

The local elections on May 4th will be the final chance before the next General Election to send a message that enough is enough.

Many local residents are fed up with the incompetence of the Conservative Party and want them out of government.

In Heswall, people are turning to the Liberal Democrats because they know we work hard for our communities, we hear your concerns, and we never take you for granted.

It's why we gained more seats than any other party across the country at last year's local elections.

And why we know we'll have more to celebrate in May!

a new start for Heswall

Ever since Wirral Council was formed 50 years ago, Heswall has been represented by Conservative councillors.

Over those years, we have seen inappropriate development that has changed the face of Heswall; while areas like Whitfield Common and The Beacons have been neglected; mature trees have been felled; and inconsiderate parking on pavements outside our primary schools has become the norm.

Elizabeth Brame, Phil Waterfield and David Jones, the Lib Dem Focus Team, say it is time for a new start in Heswall, Barnston and Gayton.
